Conference and Exhibition

MathSpeak Inaugural Conference and Exhibition

"Teaching Maths – Solving the Equations"

13th November 2013 @ Indigo2, O2 Arena, LONDON

About the Conference

The Teaching of Mathematics is evolving rapidly

In the classroom today, there is a continuing and growing focus on Mathematics and Numeracy.

Educators, regulators, government, students, parents and potential employers have singled out Mathematics as the critical area underpinning skills, knowledge and understanding across the curriculum.

The numbers of Maths teachers are increasing and becoming more demanding.

This new vibrant cohort of motivated staff are looking to expand their own skill base, cope with rapidly changing qualifications and curriculum and reap the benefits of exciting new developments in IT and ICT.

It is these issues that the conference explores. Join us for what will be a fascinating and exciting event, and one at the heart of teaching Maths in the 21st Century.

The Conference

Presentations and guidance from practitioners, experts and suppliers at the forefront of modern teaching of Maths in schools and colleges

Speakers Include

Simon Singh (simonsingh.net)

Dr Ian Jones, Senior Research Fellow in the Mathematics Education Centre at Loughborough University

Bob Usher, London Grid for Learning

Graham Cumming, Edexcel's Mathematics Subject Expert

John Kerr, Chair, UKAA

plus 3 current practitioners

The Exhibition

Leading suppliers in content provision, systems and the support of Maths Teachers, there to discuss their experiences, knowledge and services.

A Date for your Diary

13th November 2013 @
The Indigo2, O2 arena, London.
